Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

After a search and a thorough examination of the present application, claims 1 – 4, 6 – 12 and 14 – 20 are allowed over the prior art of record including IDS submitted with RCE.

The prior art of record, including IDS does not teach or fairly suggests the document schema to provide a metadata schema that enables data to be passed between an XML document and the hierarchical database, the database schema comprising a database field type identifier and the document schema comprising an XML element data type identifier that maps to the database field type identifier to facilitate converting content data between the XML element data type and the database field type based on the database field type identifier and the XML element data type identifier as recited in claims 1, 9 and 17.

The dependent claims, being definite, further limiting, and fully enabled by the specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
